

The future of cancer therapy

FELLOWSHIP IN BIOSTATISTICS

EORTC promotes multidisciplinary cancer research in Europe. EORTC research is conducted in over 300 university hospitals in 32 countries. Its network of investigators comprises more than 2500 scientists and clinicians collaborating in 20 multidisciplinary groups.

The EORTC offers a **one-year research fellowship** (renewable to a maximum of 3 years) to learn the methodology of cancer clinical studies and gain first experience working in this field in an international academic research organization.

This fellow will be primarily dedicated to research using clinical and biological data collected in the scope of **EORTC Brain Cancer Clinical Studies**. This fellow will integrate the multidisciplinary team in charge of those studies at the EORTC Headquarters and work in close collaboration with the statistician in charge of those studies.

Main aims and tasks:

- Learn the design and gain professional experience in the conduct of clinical studies in oncology through participation in the day-to-day activities of the statistics department and interactions with the other EORTC Headquarters Departments and with medical specialists in the field
- Contribute to the analysis and publication of the results of international EORTC cancer clinical studies and to ancillary research projects
- Contribute to methodological developments and application of recent statistical methods including the use/development of the needed statistical programs (in SAS or R)

Profile/Skills:

- A Master's degree in biostatistics or PhD or equivalent science degree with good knowledge in statistics
- Very good knowledge of English
- Experience with the use of SAS, and preferably also R

- Knowledge of and/or experience with survival data analysis is an asset
- Ability to work independently, under supervision of a senior statistician
- Good communication skills, both orally and in writing
- Have an interest in medical research
- Be able to work in an international and multidisciplinary environment
- Be under 35 years old

The fellowship is a full time position based at the EORTC Headquarters in Brussels, Belgium.

Please send a curriculum vitae, a letter of motivation, and two letters of recommendation to:
