

Contassur-Assistance-Conseil (CAC)

Bld Simon Bolivar, 34
1000 - Brussels

Actuarial & consulting Team

JOB DESCRIPTION – Junior ACTUARIAL CONSULTANT

Function : Junior Actuarial Consultant

1/. Job Description

The successful candidate will join the actuarial team of Contassur-Assistance-Conseil which performs the actuarial valuations of the five pension funds managed by CAC and which performs the IAS19 valuations and related reportings for the subsidiaries of the Engie group around the world as well as for the other gas & electricity client companies in Belgium.

This is a full-time position based in Brussels.

You will establish contacts with worldwide Engie subsidiaries on a regular basis to obtain information necessary for the actuarial valuation of their pension commitments. You will conduct these actuarial valuations in collaboration with your colleagues and will use the in-house calculation and reporting tools.

For the IAS19 reporting you will work in collaboration with the accounting department of the Engie group and will do the same with the other gas & electricity client companies.

In addition, you will be involved in the actuarial valuations and related reporting of the technical provisions and funding valuations of the 5 pension funds.

2/. Profile

University degree or equivalent (Mathematics or Actuarial Sciences). One or two years of experience is a competitive edge but is not strictly required.

Knowledge of English as well as French or Dutch is required.

Relevant working experience of Excel, Access, Word and MS Office is required.

Capacity to learn new computer languages and to work with databases.

Imaginative (able to develop new working methods, templates), well-organized, autonomous, common sense. Able to manage different problems at the same time. Good team spirit.

Respectful of ethics and confidentiality.
