Regulatory Toxicologist (m/f)

Lambiotte & Cie S.A., active in chemical production, is currently seeking a Regulatory Toxicologist to join the R&D Department in Brussels (Uccle).

The company

Lambiotte is a family size company established in Brussels, employing 42 people and operating a plant located in the South of Belgium.

The company develops, produces and markets acetals worldwide used by B-to-B customers active in various fields such as polyurethanes, adhesives, detergency, cleaning, aerosols, cosmetics, veterinary injectables, pharmaceuticals, agrochemicals, etc. The Lambiotte’s acetals portofolio is the widest worldwide.

The international presence and business expansion of the company is supported by a dynamic team and based on an extended - and growing - distribution network.

The context

Further to the REACH regulation, Lambiotte & Cie needs additional resources to perform toxicological and ecotoxicological studies on its portfolio. Lambiotte also intends to register its products in various countries and for specific regulations.

Toxicological aspects become more important since it is now crucial in the choice of future products.

The job description

Main responsibilities include the following.

- You are in charge of all toxicological and ecotoxicological topics related to current and future products of the company;
- You seek and select contract research organizations in order to realize required studies;
- You make the scientific and administrative follow up of these studies;
- If necessary, you rely on external consultants to carry out your mission;
- You realize scientific toxicology and ecotoxicology assessments.
This job does not involve experimental work.

The ideal candidate

Our ideal candidate will have the following qualifications:

- A Master Degree or PhD Degree in toxicology or related fields (i.e. biology, veterinary sciences);
- Bilingual French/English (any additional languages are an asset). The working language within the company is French but most of the working papers are in English;
- Be scientifically rigorous and pay attention to details;
- Be organized and able to work on several projects at once with patience and perseverance;
- Be autonomous and a team worker;
- Good communication and interpersonal skills;
- Be committed to company orientation and enjoy a SME environment.

The offer

You will be offered a permanent contract and a competitive compensation package depending on your experience including extra-legal benefits.

Practical aspects

Lambiotte’s offices are a family host house located in a hype suburban neighbourhood of Brussels. Your desk will be in a small open space with two other colleagues.
